

ASTRON Galaxy Sport VSi 10W-60

Fully synthetic high-performance low-friction engine oil for passenger cars

Properties

ASTRON Galaxy Sport VSi 10W-60 is a synthetic high-performance low-friction engine oil meeting the most stringent requirements of modern turbocharged and non-turbocharged petrol and diesel engines in passenger cars.

Excellent flow properties guarantee very good cold start behaviour. Thanks to its unrivalled high-temperature stability, the product provides a reliable lubricant film even under extreme conditions.

Effective additives ensure that combustion residue, soot and dirt particles are finely dispersed in the oil. Combined with high ageing resistance, the product offers reliable protection against black sludging and deposits on pistons and injection valves.

ASTRON Galaxy Sport VSi 10W-60 can withstand any thermal or mechanical stress and has excellent wear protection properties.

Use instructions

ASTRON Galaxy Sport VSi 10W-60 is a low-friction oil for year-round use designed for passenger car engines. It is recommended for operation under all conditions and temperatures, including racing conditions.

Specifications:

- ACEA A3/B4
- API SN/CF

Recommendation*:

- Ferrari
- BMW M Application areas

TYPICAL PARAMETERS	METHODS	UNITS	ASTRON Galaxy Sport VSi 10W-60
SAE class	DIN 51 511	-	10W-60
Density at 15°C	ASTM D4052	kg/m ³	859
Viscosity at 40°C	ASTM D445	mm ² /s	167
Viscosity at 100°C	ASTM D445	mm ² /s	25,2
Viscosity index (VI)	ASTM D2270	-	185
Pour point	ASTM D97	°C	- 42
COC Flash point	ASTM D92	°C	224
TBN	DIN ISO 3771	mg KOH/g	13,4

* meets the requirements of the OEM manufacturer.
The stated values may vary within the usual commercial range.
